

College of Engineering International Opportunities

College of Engineering's Goal:

33% of all bachelor's graduates will have at least six weeks of engineering-related work or educational experience in another country.

College of Engineering International Opportunities

➤ Why Study or Work Abroad?

- Engineers work in a global market.
- You'll gain a better understanding of other cultures, languages, business climates, and political systems.
- Your credits will transfer back to ISU.
- You have over 30 Academic Exchange and Short-term programs to pick from.
- It is very affordable.
- You will have fun!!

College of Engineering International Opportunities

Why Study Abroad?

Stay Here

- Same Classes
- Same Ice and Snow
- Same Experiences
- Same Competitiveness

Go Abroad

- Exciting Experiences
- Beaches, Mountains & Hillsides to explore
- New Adventures, Friends and Fun
- Set Self Apart
