## Report of Fish Kill

<table>
<thead>
<tr>
<th>Week: 1540</th>
<th>Date: 10 Mar 14</th>
</tr>
</thead>
</table>

### Location:
Station 9 Des Moines River below Red Rock Reservoir

### Severity:
Minor, 30 fish per minute floating downstream

### Fish Species:
70% small gizzard shad, 30% small crappie

### Climatic Conditions:
Warmer

### Additional Comments:
Examined several of the dying fish, did not see external signs of gas bubble trauma.

### Probable Cause:
Thermal Stress
