

A. Homework #4 (Due Monday Feb 25, 2008):

Starting from the end of the notes “LPSimplex2,” take the next iterative step. Perform the iteration just as we had done in these notes and test for optimality until you find the optimal solution.

B. Homework (Due Monday Feb 25, 2008):

Starting from the end of the notes “LPSimplex3,” take the next iterative step in the above problem. Perform the iteration just as we had done in these notes and test for optimality until you find the optimal solution.
